

QUALITY ENHANCEMENT AT TDMU

Quality enhancement is an important duty of any university and Thu Dau Mot university (TDMU), from Binh Duong, Vietnam, has been carrying out various activities to achieve its key objective to meet AUN-QA guidelines and criteria, preparing for several assessment under program level in 2019

AUN-QA Criteria
Adaptation

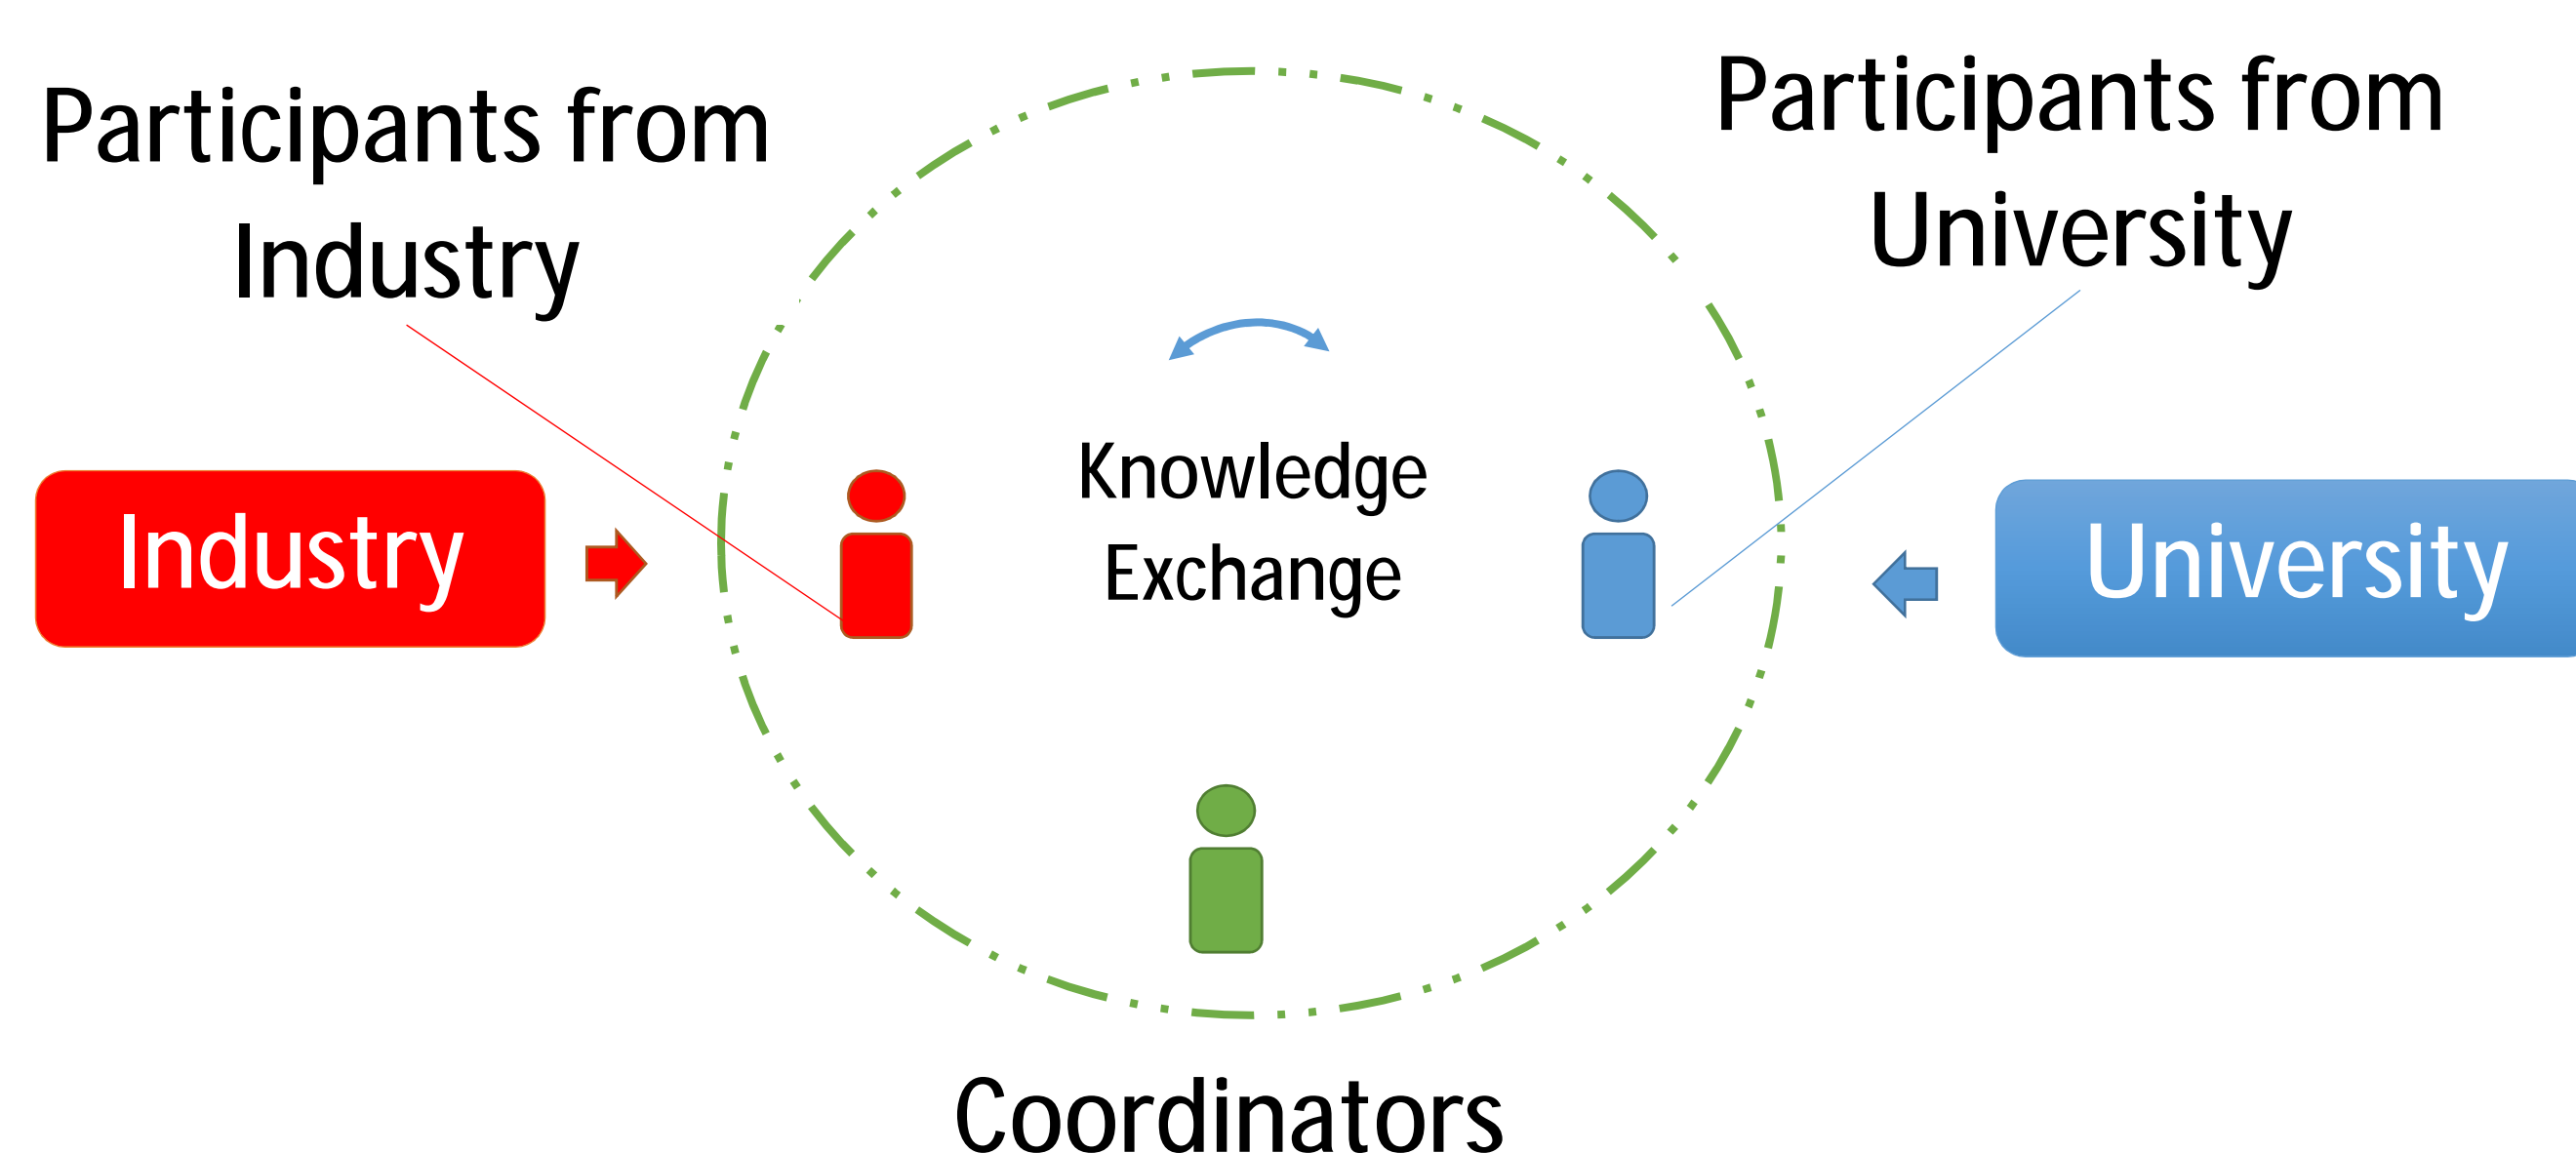

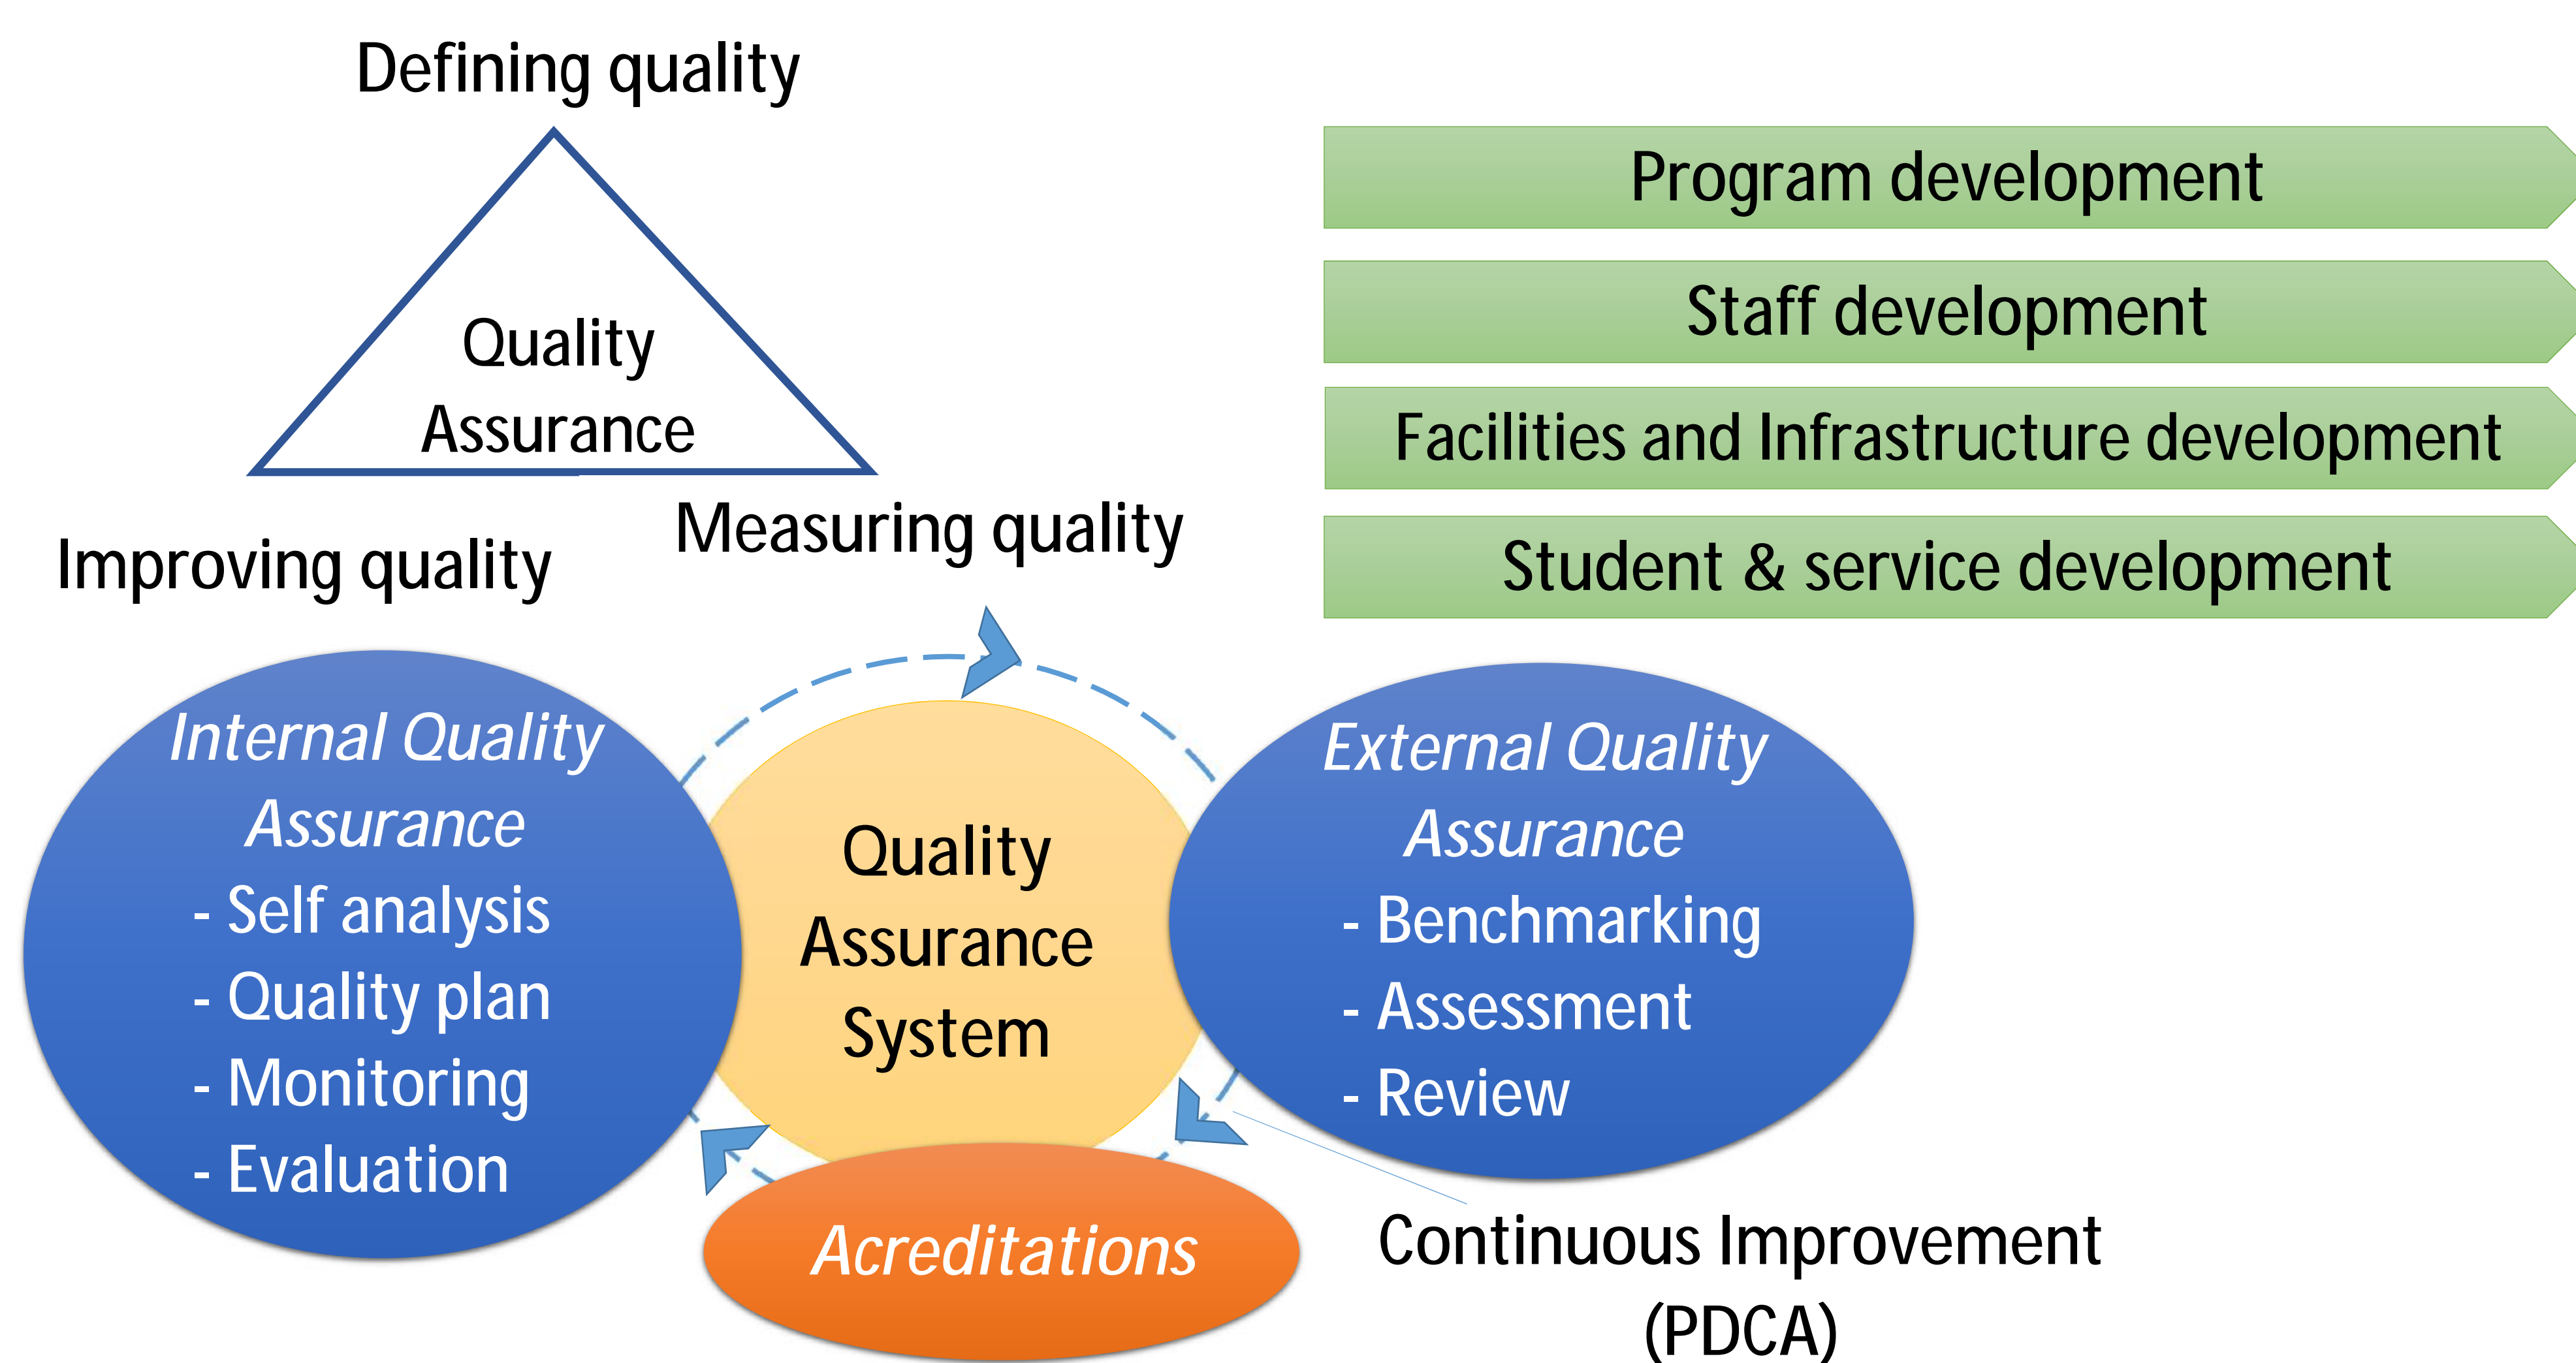

TDMU's strategy

Mission: TDMU expects to be a center of culture, education, science and technology, providing quality human resources, scientific and technological quality products which support economic, social and international integration in Vietnam, especially in Binh Duong province, the South East region.

Vision: TDMU expects to become a prestigious and smart university in Vietnam, and also in the world, to be ranked on the 350 best universities in Asia. Its learners will be global citizens who have the capability to work for both domestic and international corporations.

Objectives: TDMU pursues application-oriented in becoming a multidisciplinary university in accordance with advanced and modern international standards.

Quality assurance and quality enhancement are implemented through various activities at TDMU, especially some typical activities which are described in the following figures.

TDMU
"aspiration,
responsibility,
creation"
