The **President's Report** A.Y. 2015-2016

Message to the Lasallian Community

Br. Raymundo Suplido FSC, PhD

Dear Lasallians and friends,

Academic Year 2015-2016 was a period of academic, political, and global shifts that challenged us - to tackle situations with careful discernment, to keep an innovative spirit, and to continue to pursue greater goals for our beloved De La Salle University.

The theme for this annual report highlights such movements and is expressed in the Delta symbol. Transliterated as letter “D”, the fourth letter of the Greek alphabet, it symbolizes change. It also refers to the triangular shape of land often found at the mouth of a mighty river, fashioned by the ebb and flow of the tides, or as it splits into smaller rivulets and merges with the ocean. In science and mathematics, delta expresses incremental changes in the quantity or value of things.

DLSU’s main challenge during the period was managing the implications of transitioning into the country’s K-12 educational reform program, particularly the significant drop in freshman enrollment. So the year marked the launch of the DLSU Senior High School (SHS), housed at the St. La Salle Hall of our Manila campus. The DLSU SHS was part of our program, dubbed Connect ED, which allowed the University to welcome new students, as well as deploy permanent faculty to teach General Education subjects either to DLSU SHS or to our partner feeder high schools.

In addition, some faculty were involved in enhancing the Sr. High School curricula, while others were deployed to train or assist HS teachers in teaching these subjects.

The months leading to our national elections, as well as the change in government leadership, coincided with our initial efforts to institutionalize the UN Sustainable Development Goals (SDG) Localization Project. Launched in August 2016, this project aims to pursue global goals in the areas of education, health services, environmental sustainability, and economic development. It is a flagship program under our community engagement thrust, initiated to help improve social conditions of fellow Filipinos, especially in the barangays close to the Taft Avenue campus.

At the regional level, the University set its sights on further earning Quality Assurance marks for its various programs. The ASEAN University Network (AUN) assessed and recognized in January 2016 two university programs—BS Applied Corporate Management and BS Entrepreneurship—using its newly revised AUN-QA criteria. At the end of the academic year, 14 of DLSU's programs had successfully undergone the AUN-QA assessment.

The quality of the University's academic programs was again acknowledged by the Commission on Higher Education as CHED recognized fourteen (14) of our programs as Centers of Excellence, and five programs (5) as Centers of Development.

During the academic year, faculty and students also contributed to our long list of achievements—from academics and research, to notable performance in licensure examinations, to noteworthy community projects, to inspiring achievements in athletics and the performing arts.

Indeed, like a river seeking the great ocean, De La Salle University surged ahead, continuing its journey towards the creation of a regional Science and Technology (S&T) hub at the DLSU Science and Technology Complex in Laguna. The year saw the ongoing construction or the completion of its research centers and sports facilities. At the same time, we entered into major partnerships—with leading game developer Ubisoft Philippines, as well as with top universities like Osaka University, Tokyo Tech, and Australian National University.

Achievements affirmed our work, while challenges motivated us to raise further our standards of excellence and service. Indeed, in Academic Year 2015-2016 we, at De La Salle University, embraced change and used it as a dynamic fulcrum to move forward in pursuit of our vision to be a premier research and learner-centered higher education institution in the country.

Yours in St. La Salle,

Br. Raymundo Suplido FSC, PhD
President

DE LA SALLE UNIVERSITY

Pursuing excellence
in academics and research

Why research?

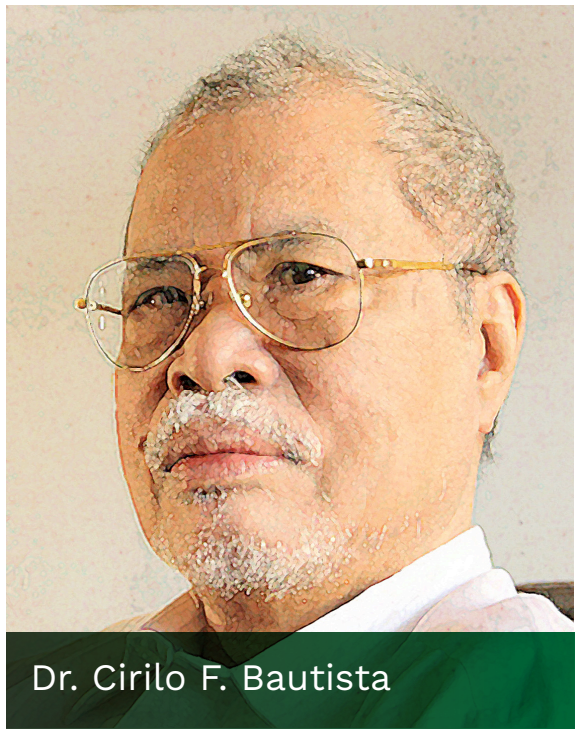

Recognizing its role as a leading resource for the country and the region, De La Salle University sought various avenues to further improve its programs, create stronger connections with its international partners, and promote research.

The University initiated programs towards building its competitiveness in the international sphere. It opened its doors to world leaders and field experts, in areas like linguistics, medical technology, literature, food technology, psychiatric therapy, and environmental engineering, among others.

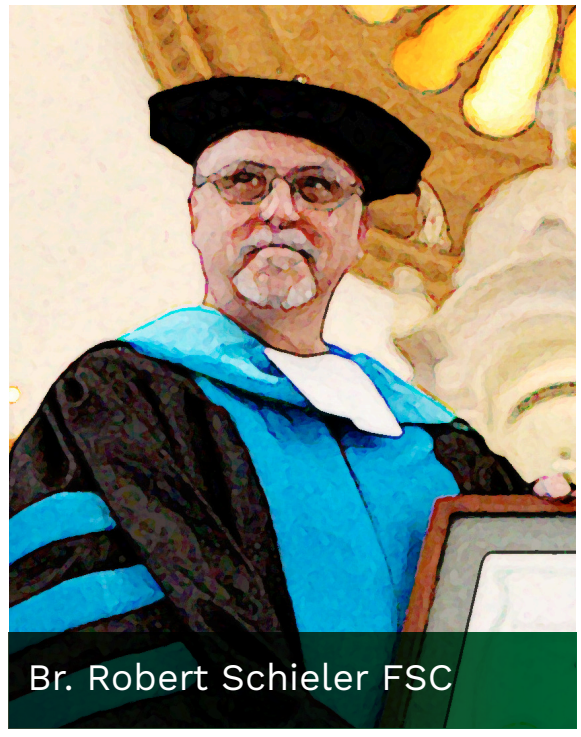

Lasallians honored the works of great minds, such as University Fellow and Professor Emeritus Dr. Cirilo F. Bautista, who was formally inducted as National Artist for Literature during the year, and National Scientist and DLSU alumnus Dr. Edgardo Gomez, who was conferred with an honorary degree on June 18, 2016. Another member of the Lasallian family, the Superior General of the Institute of the Brothers of Christian Schools, Br. Robert Schieler FSC, was likewise recognized for his contributions to the field of teaching and to the Institute, receiving a doctorate in Pedagogy, honoris causa, from DLSU.

Dr. Cirilo F. Bautista

Dr. Edgardo Gomez

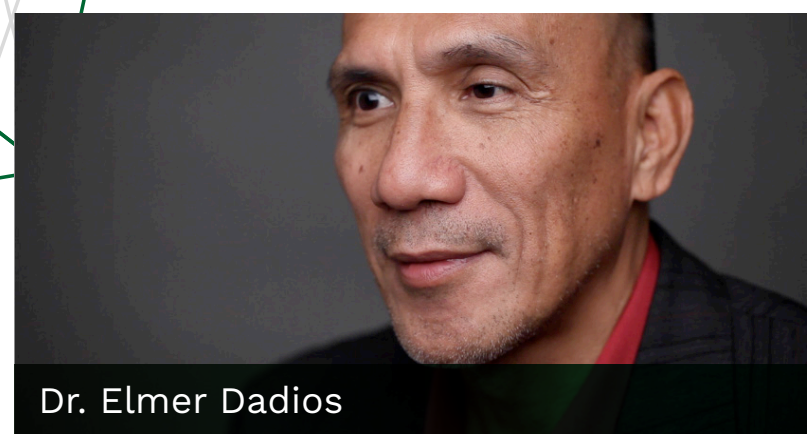

Br. Robert Schieler FSC

For their continuing quest for excellence in their respective fields, faculty members received awards from national and international award-giving bodies such as the Philippine Council for Industry, Energy, and Emerging Technology Research and Development; National Commission for Culture and the Arts; Philippine Society of Microbiology; National Book Development Board and the Manila Critics Circle; Komisyon sa Wikang Filipino; Philippine Board on Books for the Young; and Industrial Engineering and Operations Management Society (International).

Dr. Raymond Tan

Dr. Consolacion Ragasa

Dr. Elmer Dadios

In research, the Vice Chancellor for Research and Innovation, Dr. Raymond Tan, was ranked No.1 in the Scopus list* of Top 20 research-productive Filipinos and Philippine-based scientists. Ranked 2nd and 12th in the same list were Dr. Consolacion Ragasa of Chemical Engineering and Dr. Elmer Dadios of the Manufacturing Engineering and Management, respectively. It also showed that DLSU was the most productive research university in the Philippines. (*Based on Scopus records as of June 2016. Scopus is the largest abstract and citation database of peer-reviewed literature.) Meanwhile, DLSU faculty researchers were also recognized at the 2016 National Academy of Science and Technology Awards as well as the CHED Republica Awards.

Mikee Karina De Vega

Jason Don Dizon

World Universities Debating Championship

For their part, students proved their mettle in academics, research, and sports. Among their long list of achievements were in the international front: winning the championship in the World Universities Debating Championship in Greece in January 2016 (English as Second Language Category), as well as the Shell Eco-marathon Asia. They continued to top licensure exams such as the Civil Engineer Board Exam, Licensure Exam for Teachers, and CPA Board Exam. Athletes likewise contributed to building the Lasallian animo, their efforts paying off as they became the overall champion in UAAP Season 78.

DLSU Eco Car Team represented the Philippines in the Driver's World Championship (DWC) at the Queen Elizabeth Olympic Park in London.

DLSU Lady Spikers captured the UAAP Season 78 Women's Volleyball Championship

As an institution of higher learning, DLSU received 3 out of 5 Palmes of Excellence in the Eduniversal Ranking, which described it as an “Excellent business school with reinforcing international influence.” The University received the recognition during the Eduniversal World Convention held at Harvard University in Boston in October 2015. The top 200 business graduate programs were ranked in Far East Asia, a region composed of 17 countries, including Japan, Singapore, and China.

It is also the only university that was recognized as a CHED Center of Excellence (COE) in Accountancy and also in Industrial Engineering. DLSU registered the most number of Centers of Excellence among private higher education institutions, with a total of 14 programs named as such. It was also acknowledged by CHED as having 5 Centers of Development.

In constant pursuit of excellence and knowledge amid major shifts in the academe, the socio-political grounds, and the global culture, DLSU achieved in many fields as it remained rooted in its mission to transform lives through education.

RESEARCH

HIGHLIGHTS

DLSU was the most productive research institution in the Philippines based on Scopus-indexed publications in 2014, 2015 and the first eight months of 2016

DLSU now ranks 3rd among all research institutions in the Philippines (next only to IRRI and UP-D) in terms of cumulative Scopus-indexed publications, with 2,056 listed research outputs in the database.

DLSU has surpassed the institutional h-index target for AY 2015-16, with the current h-index of 54

DLSU has been granted its first patent, for "A biodegradable filter using coconut derived activated carbon and citricidal," by the Intellectual Property Office of the Philippines, and has thus met the institutional target for intellectual property generation in AY 2015-16

DLSU research talent pool has developed significantly, as shown by the increase in number of faculty members and research students with significant records in the Scopus database, which now lists 70 DLSU-affiliated authors with at least 10 publications.

DLSU researchers will be receiving prestigious awards from the National Academy of Science and Technology (NAST) and the Commission on Higher Education (CHED), and the National Research Council of the Philippines (NCRCP) in July 2016:

NAST Awards

- Dr. Aristotle Ubando (2016 NAST Outstanding Young Scientist)
- Dr.Jose Isagani Janairo (Winner of the 2016 NAST Talent Search for Young Scientists)
- Dr. Julio Teehankee (2016 NAST Outstanding Book)

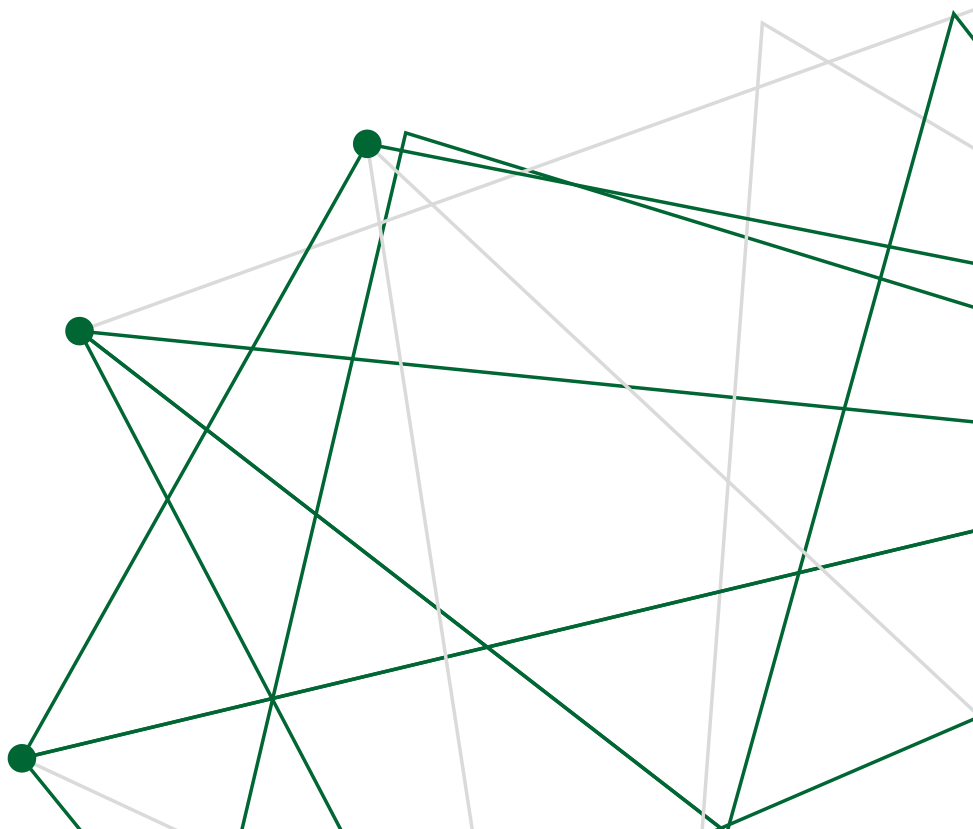

CHED Republica Awards

- Dr. Wilfredo Licuanan et al. - 2016 CHED Republica National Award
- Dr. Aristotle Ubando et al. - 2016 CHED Republica National Award
- Dr. Aristotle Ubando - CHED/Thomson Reuters 2016 Promising Stars Awards
- Dr. Krista Danielle Yu - CHED/Thomson Reuters 2016 Promising Stars Awards
- Ms. Christina Cayamanda - Special citation in the 2016 NAST Talent Search for Young Scientists

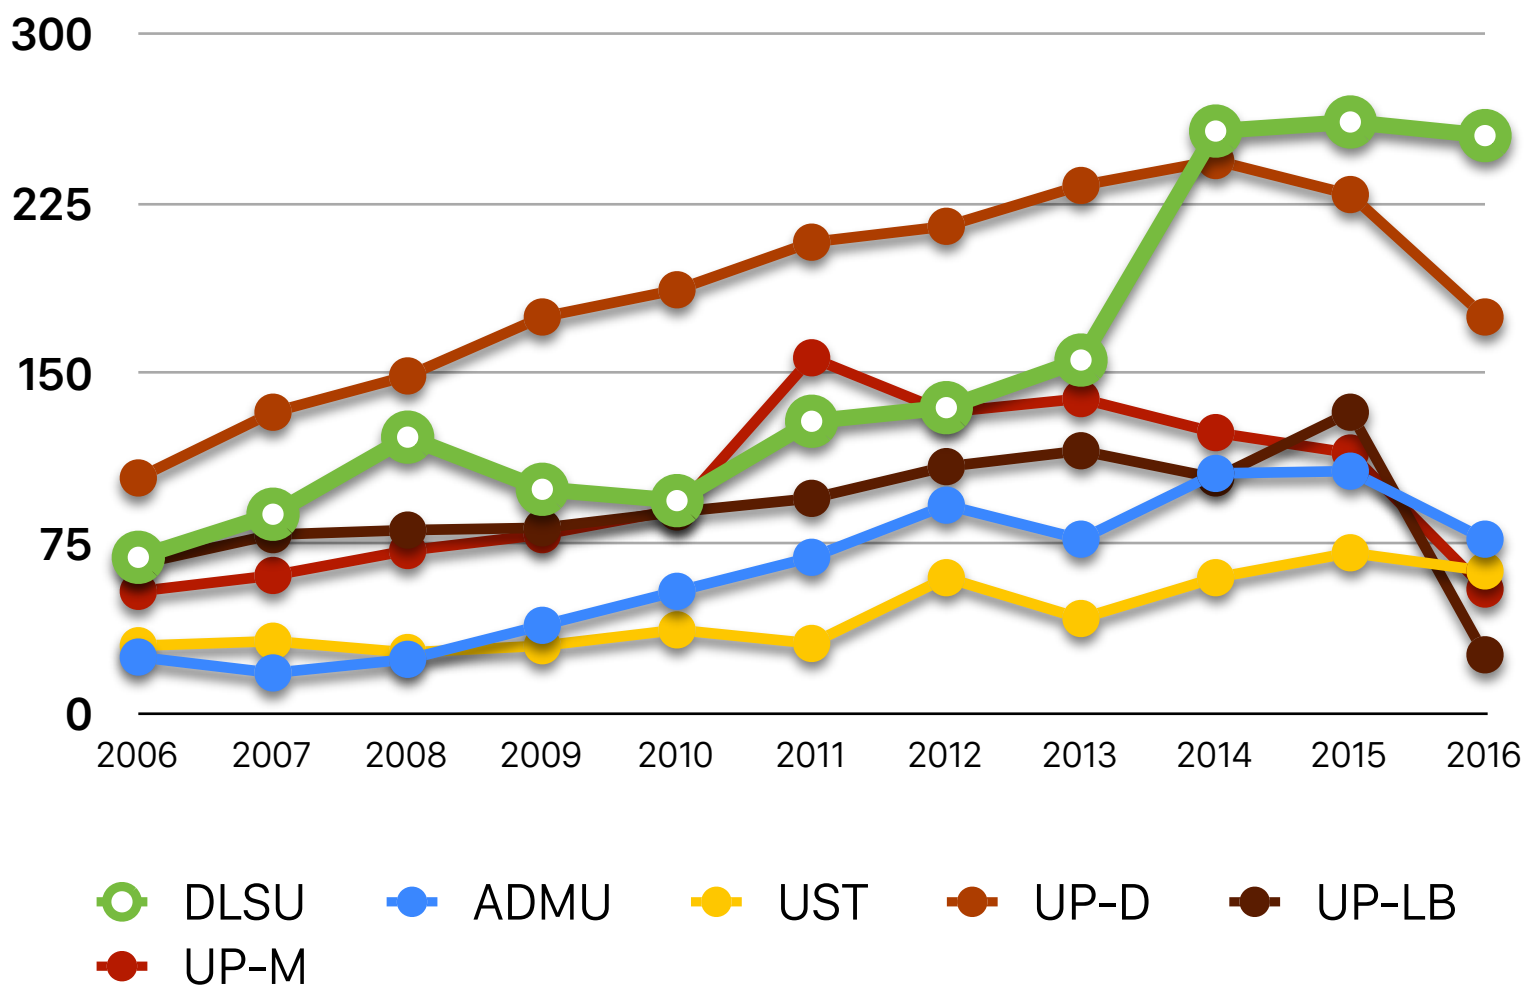

NRCP Achievement Award

- Dr. Maricar Prudente - (2016 Achievement Award Division 1 (Educational, Govenmental and International Policies), National Research Council of the Philippines

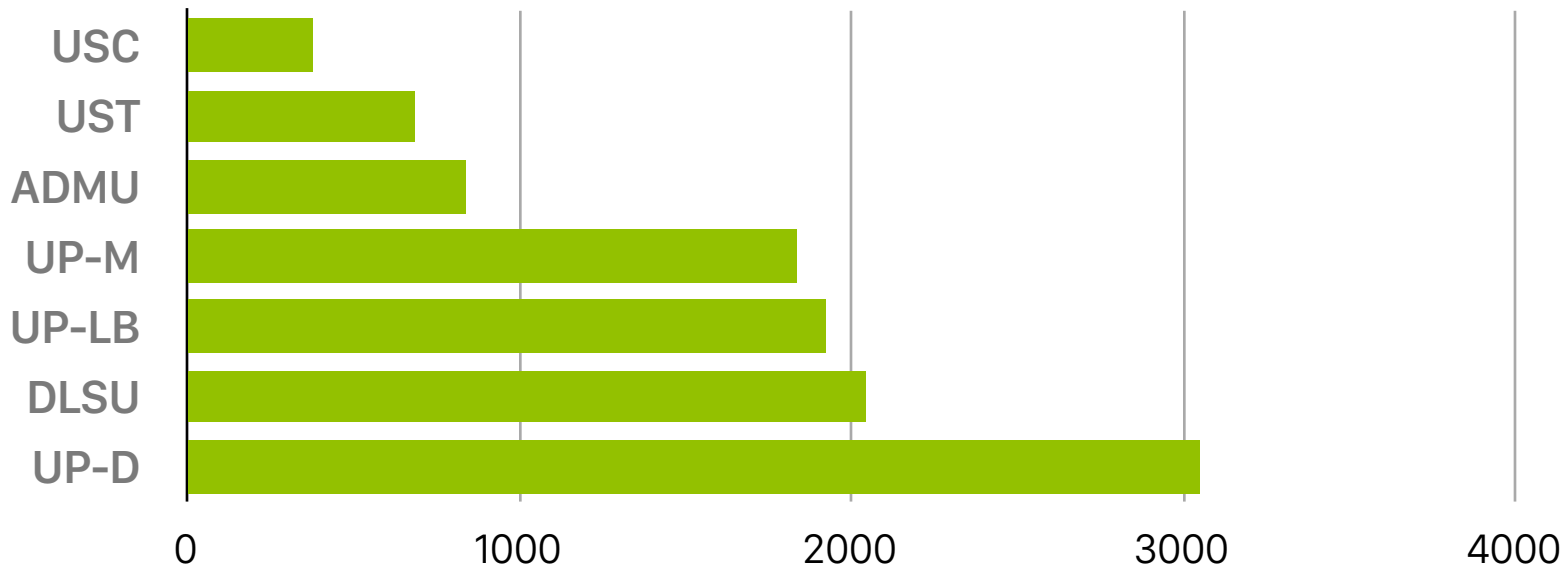

DLSU researchers have been highly successful in securing grants from government agencies (DOST, CHED), private foundations (OMLC) and aid-based funding programs (USAID-STRIDE and The Newton Fund)

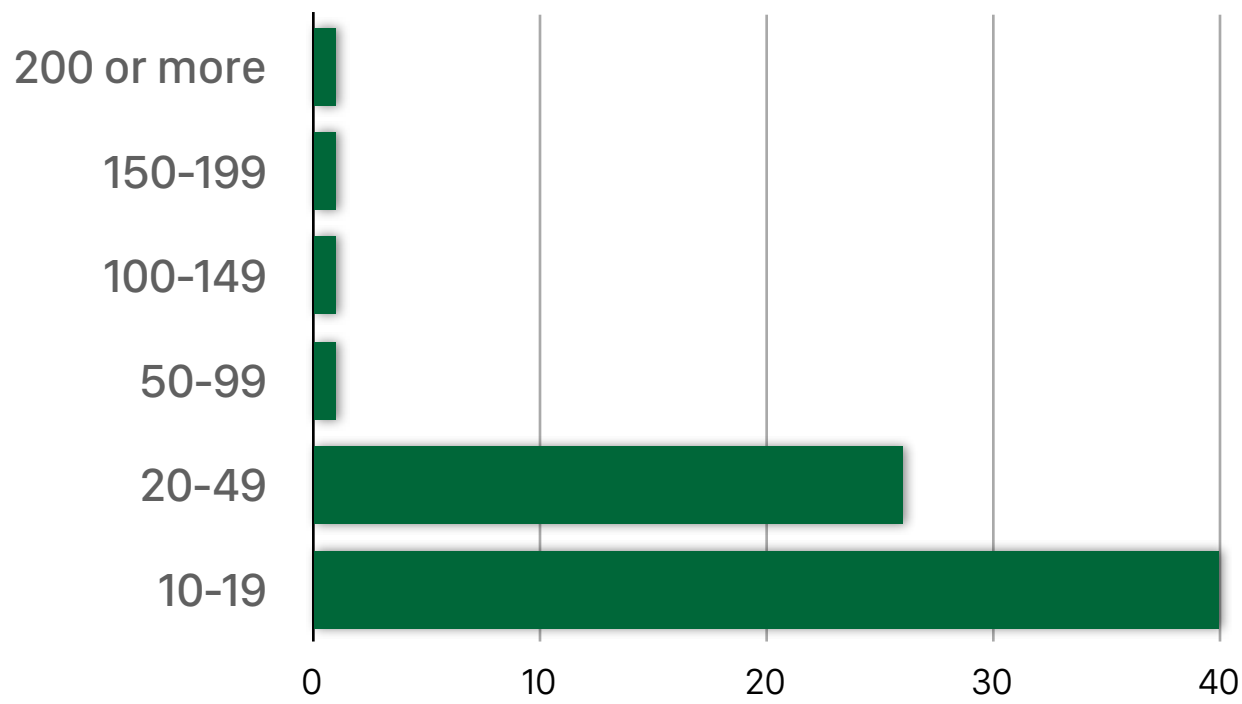

Output of Scopus Indexed Publications of DLSU in Comparison with UP-D, UP-LB, UP-M, ADMU and UST As of August 2016

Institutionalizing community engagement

DE LA SALLE UNIVERSITY

De La Salle University launched in August 2016 a flagship community engagement initiative that uses as its development platform the United Nations' Sustainable Development Goals. The project, dubbed as SDG Localization Project, aims to pursue at the community level 11 out of 17 global goals of the UN.

As a pioneer in SDG localization, DLSU seeks to influence other colleges and universities in pursuing socially relevant and impact-driven projects. The University's social action arm, the Center for Social Concern and Action, identified four key components of the program, namely: Lasallian Accessible, Relevant, and Alternative Learning (L-ARAL) for education; Lasallian Health Education, Health Services, and Training Services (L-HEARTS) for health; Lasallian Environmental Sustainability and Governance (L-EnviSaGe) for the environment; and Lasallian Social Enterprise for Economic Development (L-SEED) for business and economy.

Lasallian Accessible, Relevant, and Alternative Learning (L-ARAL)

DLSU SHORE Center community activities in Talim Bay

For a particular sustainability effort, i.e., the coastal resource management of Talim Bay, site of DLSU's SHORE Center, the University received a Highly Commended Distinction in the 2016 Global Universities Partnership on Environment and Sustainability (GUPES) Green Gown Awards, the only Philippine university to receive the award among finalists from Asia and the Pacific. DLSU's entry highlights COSCA's consultative process with the local fisherfolk and their families, as well as underscores the advantages of protecting and conserving their natural resource base. The GUPES Green Gown Awards are supported by the United Nations Environment Programme.

The different colleges and units of the University, for their part,pursued their targets for the fulfillment of the Lasallian Mission Goals. Through the Service-Learning program, theories learned in the classroom were applied by faculty and students on real-life situations, particularly in many disadvantaged communities not only in Metro Manila but also in the provinces. COSCA also took the initial steps to make Service-Learning part of DLSU's internationalization efforts, encouraging and exposing foreign students to its various community engagement projects, with the latter getting course credits under the COSCA linkage.

To promote a stronger sense of community among Lasallian faculty, administrators, and staff, the University introduced Animolympics. Through this series of sports competition and fun activities, Lasallians were given the opportunity to get more acquainted with their fellow Lasallians.

In support of good governance, the DLSU Jesse M. Robredo Institute of Governance launched the JRIG Knowledge for Development Community. The KDC in partnership with the World Bank serves as a learning hub for key stakeholders to create, share, and apply knowledge to address development issues. JRIG also launched the initiative "Institutionalizing Government-Civil Society Monitoring and Assessment of Public Service Delivery to the Poor," which aims to encourage various stakeholders to continue the generation of knowledge that will be utilized and extended to communities through training and continuing education. This initiative was supported by industry partner SEAOIL Foundation Inc., and targeted organizations in Regions 6 and 10.

The establishment of new, major community engagement programs in Academic Year 2015-2016 underscored DLSU's resolve to continue St. John Baptist de La Salle's foundational work that changed lives through faith, service, and communion in mission.

Sustainable Development Goals Localization Project

The DLSU Sustainable Development Goals (SDG) Localization project aims to assist local government units in the localization of the SDGs. The project will be piloted in seven barangays in District 5 of Manila City with an initial five year implementation. The project will be implemented in coordination with local government units, NGAs, CBMS Philippines, OLAP, UNDP, and other local NGO-POs.The different community engagement activities of DLSU will be consolidated in the pilot barangays.

L-SEED

Lasallian Social Enterprise for Economic Development

Established partnership with RVRCOB, SOE, and CLA to capitalize on their social entrepreneurship skills and expertise

Initial coordination with with UNDP and British Council on SDG-SE information sharing

Business (informal sector) scoping in partner communities

L-EnviSaGe

Lasallian Environmental Sustainability and Governance

Consultation meetings with Manila City local government and NGAs on solid waste management, disaster risk reduction management, estero rehabilitation initiatives and activities

DRRM TNA in pilot barangays

Consultation meetings with Campus Sustainability Office and Design School of DLS-CSB

L-ARAL

Lasallian Alternative, Relevant and Accessible Learning

Strengthening of Alternative Learning System (ALS) through the participation of student organizations, studnet government, library service group, international volunteer teachers, and Brothers

Exploring partnership with CSB-CSA Kapitbahayan, Rotary Club of Manila, and Jetti Foundation (Scholarships and Learning Tours)

L-HEARTS

Lasallian Health Education, Accessible Resources, and Training Services

Community health survey to be conducted in a partner community in Leveriza, Manila (DLSU Health Office)

Community diagnostic tool for comprehensive assessment of health situation (DLS-HSI)

Medical mission (DLSU graduate program students)

Anti-rabies vaccination (DLSAU)

Access to chiropractic care (Intercare Chiropractic Center)

Mental health awareness seminar (Balik Kalipay Center for Psychosocial Response Inc.)

Service Learning

Undergraduate Programs – 34%
Graduate Programs – 7%

Only 34% of the undergraduate programs have Service Learning (SL) component. The decline in the percentage of SL component compared to previous academic years can be attributed to the interpretation of the courses that can be considered as SL. In the past, TRED subjects have been included in the count but now they only consider subjects that are part of the major program. For the graduate programs, only 7% have SL component.

The University have also expanded its target for SL to include international SL activities. For AY 2015-16, the College of Liberal Arts and College of Science have partnered with international universities for SL activities.

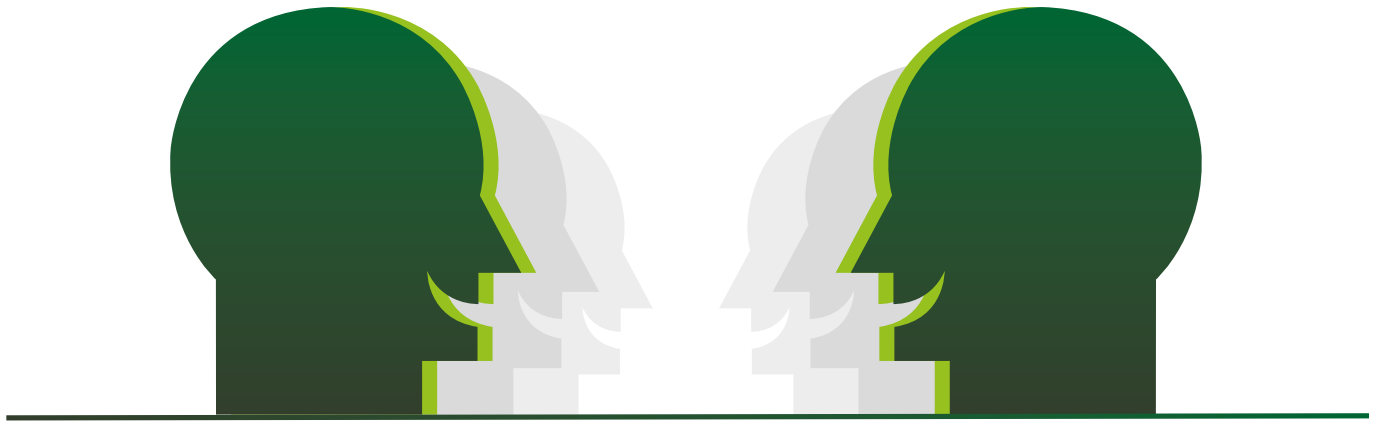

Work-Life Balance of Personnel

To contribute to the work-life balance of DLSU's personnel, as well as foster camaraderie among the different units of the University, the Office of the Vice President for Lasallian Mission and the Office of Personnel Management organized the institutional summer outing and institutional sportsfest.

Dubbed as #DLSUBreak 2016, the summer institutional outing was held at Enchanted Kingdom on May 16, 2016. The event was attended by 969 DLSU faculty, staff, and administrators.

The annual Animolympics was held on May 10 - 21, 2016. A total of 910 personnel participated in 46 sports events.

Developing our personnel and processes

As part of the new programs under the Lasallian Mission, team building activities off-campus were conducted for the University's academic service and co-academic personnel. The series of activities gave them the opportunity to re-orient themselves to the Lasallian Mission and history while also allowing them to relax and recharge away from their regular work. It also provided them the venue to get acquainted with other members of the Lasallian family.

In support of teaching and research, the DLSU Intellectual Property Office fast tracked its review of projects and contracts. It also conducted seminars on the process of entering into partnerships with organizations, industry, or academic partners, as well as the proper procedures and basic knowledge for drafting or entering into contracts such as a Memorandum of Understanding or a Memorandum of Agreement.

University Fellow Dr. Susan Gallardo and team

It was also during the academic year that DIPO, together with the DLSU Innovation and Technology Office, facilitated the patent prosecution process for DLSU's first invention patent. The project, a coconut-derived biodegradable water filter, was created by the team of University Fellow Dr. Susan Gallardo, Dr. James Patrick Abulencia, faculty member of Manhattan College, and Francis Narvin Tanala, DLSU BS-MS student.

DLSU also established the Research Ethics Office (REO), which sees the implementation and evaluation of policy and procedures related to research governance in the University. It makes sure that research protocols adhere to international and disciplinal ethical standards, guaranteeing the high quality of research output in DLSU.

Seeking to improve the administration and operations of the University, the Office of the Risk Management, Compliance, and Audit provided recommendations on how office units, departments, and colleges could maximize their resources.

Payments to FEU for share in MBA-JD Program (AY2008-09 to AY2012-13)

2. Job Review, Position Level Assessment, Classification Assessment, Hiring Recommendation, and Reorganization request

Evaluated 551 requests for contractual personnel and recommended 529 (96%) for approval.

Evaluated 32 requests for creation of new position and 28 (88%) were approved.

Completed 38 position level re-assessment as requested by Office of Personnel Management (OPM) and unit heads

Completed 47 classification assessment as requested by Vice Chancellor for Academics and unit heads

Completed 11 hiring requests and 9 reorganization requests

3. Modern Conduct of Schools (MCS)

Submitted Self-Assessment (SA) tool on MCS for FEPM-Phase 2 to DLSP

Submitted Self-Assessment (SA) tool on MCS for Advancement to DLSP

4. Service Level standards

Service 1: Trademark Application Approval

Service 2: Leave Processing

Service 3: Materials Requisition Form (MRF) for office supplies

5. Others

In coordination with Office of Personnel Management (OPM), evaluated 188 Direct-hire
contractual

In coordination with Office of Personnel Management (OPM), redrafted the freeze hiring
policy into restricted hiring policy

In coordination with Office of Personnel Management (OPM), spearheaded the development of job classification guidelines

Spearheaded the revision of PCF policy and implementation of Reorganization Guidelines

Responding to the challenges of K-12

Why DLSU
Senior High School?

CONNECT ED

MOVE ON. MOVE UP. MOVE HERE.

De La Salle University

Senior High School

DLSU opened its Senior High School in Academic Year 2015-2016. Housed at the St. La Salle Hall of the Manila campus, DLSU SHS welcomed junior high school students who wanted to pursue a learner-centered, holistic Lasallian education.

Beginning with Grade 11, the DLSU SHS offered three specialized academic strands, namely: Accountancy, Business, and Management (ABM); Humanities and Social Sciences (HUMMS); and Science, Technology, Engineering, and Mathematics (STEM).

A program dubbed Connect ED was developed by the University to address issues on student enrollees as well as the deployment of permanent faculty teaching General Education classes. Connect ED involves DLSU's strategic partnerships with La Salle Green Hills, De La Salle Zobel, and DLSU Integrated School in Laguna. Under this program, DLSU also identified feeder schools, where a number of faculty either provided training for their teachers or taught classes for the senior high students.

Meanwhile, other faculty members took the opportunity to pursue research in their respective fields, gaining support from research centers or institutions, both internally and externally.

At the end of the academic year, DLSU President Br. Raymundo Suplido FSC, PhD shared in a general assembly of the Lasallian community the projections on both the enrollment and resources in the next few years covering the initial stage of the K-12 implementation. His key challenge to the Lasallian community was to contribute to the proper and effective management of the University's resources.

Shaping a vision through continued growth and innovation

DE LA SALLE UNIVERSITY
SCIENTIA MORES DOMINATUR
MANILA

Envisioning a stronger foothold in its role as a leading learner-centered and research university in the country, De La Salle University zeroed in on two key areas necessary for development: international linkages and state-of-the-art infrastructure.

DLSU sought and entered into new linkages while also solidifying its connection with top foreign universities. As of last year, the University was linked with 13 international organizations and 73 universities and research institutions in Asia, the Americas, Europe, and Oceania.

In Academic Year 2015-2016, DLSU reached an agreement with three Chinese institutions of higher learning, which are members of the C9 League, an alliance of nine elite universities in China analogous to the Ivy League of the US. These new partners are the School of International Relations and Public Affairs, Fudan University; the School of International and Public Affairs, Shanghai Jiao Tong University; and the Center for International Arts and Humanities, School of Natural Sciences and Humanities, Harbin Institute of Technology in Shenzhen.

The agreements aimed at promoting student and faculty exchanges, language, and cultural studies, and collaborative research and workshops with the three Chinese universities. These linkages are envisioned to boost DLSU International Studies Department's Chinese Studies program, which was revived in Academic Year 2013-2014.

Fudan University is interested in exchange of students and professors. Shanghai Jiao Tong University is keen in pursuing double degree master's and doctoral programs with DLSU. Harbin Institute of Technology in Shenzhen has agreed to introduce a joint certificate program on International Business and Cultural Studies.

DLSU likewise facilitated a memorandum signing with Osaka University for two double degree programs, namely, Ph.D. in Engineering and Physics and the Doctor of Science and Philosophy in Physics or Chemistry. DLSU's partnership with OU dates back to 2003.

In July 2016, DLSU Gokongwei College of Engineering and Nagoya University's Graduate School of Engineering and Graduate School of Environmental Studies signed an Agreement for Academic Exchange and Cooperation and Student Exchange Memorandum. DLSU's Civil Engineering faculty also sought Nagoya University's expertise in view of their plan to set up a Concrete Quality Research and Training Center at the DLSU Science and Technology Complex in Laguna.

Select Mechanical Engineering students also went to Tokai University in Kanagawa, Japan for the Sakura Exchange Program in Science, which was administered by the Japanese Science and Technology Agency. Focusing on the areas of mechatronics and robotics, they were brought to different laboratories and immersed in the culture of their host institution.

At the same time, the University linkage with Australian National University highlighted a collaborative, articulated degree program wherein students may acquire a Diploma in Development Economics and have the opportunity to attain a Master's degree either in International and Development Economics or in Environmental and Resource Economics, as administered by the ANU Crawford School of Public Policy.

The first batch of students composed of 25 civil servants under the partnership program between DLSU and University of Newcastle graduated at the end of the academic year. They took a dual program leading to a Masters in Human Resource Management from the University of Newcastle, and a Diploma in Industrial Relations Management from De La Salle University. The program was delivered in two parts – first at DLSU for two terms, and at UON for one year.

DLSU also partnered with leading game development studio Ubisoft. The studio aimed at opening its second Southeast Asian development studio at the DLSU Science and Technology Complex. The partnership will support training programs and internships for DLSU students. Under the agreement, Ubisoft personnel will provide co-teaching services while DLSU students will be prioritized for internships.

Ubisoft will collaborate with the University in forming two new undergraduate courses, namely: Bachelor of Science in Computer Science major in Game Development and Bachelor of Science in Entertainment and Multimedia Computing.

Meanwhile, DLSU entered into the final construction phase of its new extension, the DLSU Rufino Campus in Bonifacio Global City. Built on a 1,395 square meter land, it opened its doors in September 2016 to the DLSU College of Law. It is also set to house Professional and Continuing Education Courses, inclusive of graduate programs of the Ramon V. del Rosario College of Business. DLSU Science and Technology Complex in Laguna also oversaw a series of construction projects, which included three research facilities for the sciences and engineering.

DLSU's connection with international partners as well as its continuing construction of research and academic facilities boosted the commitment of its community members to contribute in creating a genuine, positive change for Filipinos.

DLSU AARO
YEAR END REPORT

AY 2015-2016

Physical Facilities - Completed Projects

Architectural and Civil/Sanitary Projects

Count	Project Title	Project Cost (PhP)	Remarks
1	Proposed Campus Services Office at HSSH-4/F	Php 769,577.18	April 15, 2016 Completed
2	Proposed IS Clinic at STC	Php 2,800,000.00	December 30, 2015 Completed

Mechanical and Electrical Projects

Count	Project Title	Project Cost (PhP)	Remarks
A. Electrical Works			
1	Supply and installation of Façade lighting for Gokongwei Hall	Php 117,009.65	February 2016 Completed
2	Supply and distribution of Main Distribution Panel (MDP), Brothers' Community, 4th Flr., St. La Salle Hall	Php 70,000.00	February 2016 Completed
3	Acquisition of power capacitor for E. Razon Sports Center		February 2016 Completed
4	Replacement of 28 units of Maxspid Minnie Emergency lights for various location in campus	Php 95,200.00	March 2016 Completed
5	Replacement of Maxspid exit lights for various location in campus	Php 116,542.80	April 2016 Completed
6	Replacement of 3200 Amperes Main Power breaker of E. Yuchengco Hall	Php 450,000.00	May 2016 Completed
7	Replacement of circuit breaker at Leveriza Driveway	Php 440,000.00	Completed
8	Additional installation of Ground Fault Circuit Interrupter (GFCI) and outlets for 4th Flr. Laboratories, St. Joseph Hall	Php 200,000.00	Completed
9	Acquisition of Maxspid Minnie, Emergency Lights for Henry Sy Sr. Hall	Php 200,000.00	Completed
10	Supply and installation of Façade and Landscape lighting for St. La Salle Hall	Php 4,978,000.00	Completed
11	Supply of garden lighting at Faculty Center, Velasco gate entrance, Henry Sy Sr. Hall, Bloemen and E. Yuchengco Hall	Php 150,000.00	Completed

Count	Project Title	Project Cost (PhP)	Remarks
B. Centralized Air-Conditioning Units (Chillers/Cooling Towers)			
1	Replacement of compressor parts and charging of refrigerants for chiller #2 at AGH	Php 205,400.00	January 2016 Completed
2	Replacement of compressor parts and charging of refrigerants for chiller #1, AGH	Php 113,000.00	January 2016 Completed
3	Replacement of 2 pcs of printed circuit board for Mitsubishi escalator at Henry Sy Sr. Hall	Php 50,400.00	March 2016 Completed
4	Replacement of liquid level sensor with evacuation and welding works for Chiller No. 3, E. Yuchengco Hall	Php 324,509.36	On-going
C. Elevators and Escalators – Repairs and Maintenance			
1	Additional installation of door stickers/veneer panels for elevators at 2nd, 7th, 8th, and 9th floor, PE/Sports Bldg.	Php 130,000.00	January 2016 Completed
2	Reconditioning of hoisting motor and replacement of thermal switch PT100 for passenger elevator 1, E. Yuchengco Hall	Php 122,248.00	January 2016 Completed
3	Replacement of printed circuit board for Mitsubishi Escalator, HSSH	Php 50,400.00	March 2016 Completed
4	Replacement of hoisting ropes for Service Elevator, E. Yuchengco Hall	Php 372,405.60	May 2016 Completed
D. Generator Sets – Repairs and Maintenance			
1	Replacement of Control Panel for 250KW Genset B, Leveriza Parking area	Php 62,304.48	March 2016 Completed
2	Reconditioning of alternator for 250KW Caterpillar genset B, Leveriza genset room B	Php 210,884.91	June 2016 Completed
3	Replacement of voltage regulator and heat sink assembly for Genset B, genset room, Leveriza area	Php 150,212.16	June 2016 Completed

Count	Project Title	Project Cost (PhP)	Remarks
E. Pump motors – Repairs and Maintenance			
1	Replacement of Motor Control Panel for North and South wing Motor of St. La Salle Hall	Php 45,780.00	May 2016 Completed
F. Drinking Fountains			
1	Semi-annual replacement of pipes and filters for 88 units of water coolers and water purifiers in campus	Php 148,720.00	July 2016 Completed

Campus Development

Count	Project Title	Cost (PhP)	June 2016 update	September 2016 update	Current activity/Remarks
1	(STC) La Salle Innovation Center	P85M	26.94%	44.11%	Concreting of Ground Floor slab.
2	(STC) STC road network	P30M	IS annex road construction mobilized on 24 May 2016.	IS annex road 60%	Road network phase 1 for bidding. Target project commencement is November 2016.
3	(STC) College rubberized track oval and football field	P99.1M	95.91%	95.91%	Punch listing of oval and field on going. Additive works on the peripheral drainage prioritized.
4	(STC) Integrated School football field	P55M	70.85%	73.10%	Drainage works on going. Supply of garden soil and grass awarded.
5	(STC) Clean building	P140M	93%	96%	Tiling and mechanical works on going.
6	(STC) Hangar building	P150M	93%	96%	Tiling and mechanical works on going.
7	(BGC) DLSU Rufino Campus	P250M	93%	96%	Punch listing on going. CoL has moved into the building.
8	(Manila) Development of Razon 6th Floor to house fitness center, LSDC dance studio, archery range, and LS Chorale practice area	P35M	70.00%	88.00%	Electrical feeder lines being installed.
9	(Manila) Renovation of St. La Salle Hall South Gate and walkway	P16M	For re-bidding	Bidded out, For awarding	Target project commencement is October 2016.
10	(Manila) Renovation of Br. Connon Student Hall – Student Affairs, StudentPublications, Cultural Arts offices and student groups	P71M	27.22%	52.37%	Plastering, painting, and mechanical works on going.

DATABASE MANAGEMENT

Target for 2015-2016:

Encode 38,477 alumni profiles from DLSU 1994 Directory
Research and verification of grades chool and high school information

Profile of Entries	AY 2014 - 2015	AY 2015 - 2016
Total Entries in Alumni and Donor Database	81,624 (100%)	113,643 (100%)
Entries with address or email or contact number	68,469 (83.88%) of 81,624	90,079 (79.26%) of 113,643
Number of profiles with Valid Contacts	17,991 (22.04%) of 81,624	53,458 (48.59%) of 113,643

Researched & Encoded	AY 2014 - 2015		AY 2015 - 2016	
	Encoded	Researched	Encoded	Researched
September		19,252* Data obtained from OUR	2,503	202
October			1,126	224
November			4,318	
December			2,135	
January			5,886	
February			5,802	
March			6,230	
April			6,268	
May	918		6,496	521
June	1,342	69	1,420	845
July	1,142	97	3,390	722
August	978	63	1,226	232
TOTAL	4,380	19,481	46,800	2,746

Success Factors:

Successfully increased E-mail coverage by increasing the scope of the database.

Established continuous updates from OUR, the office now receives files containing Alumni and Alumni in residence information for our database.

Also included faculty and students.

Areas for Improvement (AFI):

Backlog of OUR files for encoding; more student volunteers needed.

- Level up the quality of information encoded from mere contact details to history of employment, achievements and family history/ relations.

Target for 2016-2017

	Monthly	Annual
Researched 150%	572	6,865
Encoded - Documents from OUR (Minimum)	1,500	18,000

A. Birthday Greetings

Month	Total Recipients	Total Unique Opens	Percentage of Unique Opens
September, 2015	4,327	782	18%
October, 2015	4,111	833	20%
November, 2015	3,892	814	21%
December, 2015	3,802	682	18%
January, 2016	3,437	764	22%
February, 2016	3,134	620	20%
March, 2016	3,370	690	20%
April, 2016	3,371	683	20%
May, 2016	3,519	635	18%
June, 2016	3,464	707	20%
July, 2016	3,510	638	18%
August, 2016	2,716	491	18%
TOTAL	**42,653**	**17,158**	**20%**

Objective:	1. To increase Unique Opens 2. To Increase Birthdate Entries in Database
Areas for Improvement:	Update contacts of bounced emails. Customization Requests from Akubo: produce own monthly report, have accurate numbers and figures of bounced emails, and fix bugs that affect reporting. Come up with a social media campaign which will increase Birthdate Entries.

B. Alumni Relations Email Inbox

Type	Frequency
DLSAA Membership Concern	15
Request for Official Document (TOR)	6
Campus Tour	6
Job Posting	28
Job Hunting	3
Update of Alumni records	23
Thank you for Greetings	68
Response to E-newsletter	113
Others	8
TOTAL	**338**

C. Campus Tours Facilitated

Date	Number of Alumni
May 4, 2016	Jose Franco
June 17, 2016	Vera Barcega-Ramirez
July 2, 2016	Jose Sarte
August 12, 2016	Victoria Alfonso

Areas for Improvement: Obtain Campus Tour script and training from Lasallian Ambassadors and tailor fit to alumni.

D. DLSU Arrow E-Newsletter & Special Occasion E-Greetings/ E-Invites/ E-Announcements

	Number	Percentage
DLSU ARROW Issues released	12	
Abut Tanaw	1	
Holiday Greeting	4	
Special Issues	4	
Average Number of Recipients:	51,716* out of 113,643	46%
Average Unique Opens:	6,530*	13.%
Average Unopened:	45,263*	87%
Average Bounced	8,042*	18%
Average Number of Opted out per month:	12*	.02%

Out of 113,643 contacts in Database

*Based from the Akubo generated report

Objectives:	Release Arrow e-newsletter at least once a month. Send Out special occassion e-greetings.
Success Factors:	**ARROW e-Newsletter Issue with Highest Open Rate:** Sports Related newsletter Insights • Sports Related Newsletters = 6 • Average Opens = 28% • Average Unique Opens = 15% • Average Opt out = 15 • Highest Opt Out = 23
Areas for Improvement:	**ARROW e-Newsletter Issue with Lowest Open Rate:** Solicit the services of copywriter, writers, editor and photographers. Issue survey to measure readership preferences. Customization Requests from Akubo: produce own monthly report, have accurate numbers and figures of bounced emails, and fix bugs that affect reporting.

E. De La Salle Alumni Association Representation

ACTIVITIES	
Regular Board Meetings	Monthly
Committee Memberships	**DLSAA Organizational Development Committee** (The Org Dev committee, Chaired by Boy Kalaw, is tasked with the rationalization and streamlining of operations of the association as well as ensuring its legal compliance and fiduciary responsibility including those of its officials.) Current issues: 1. Closing of the SEC and BIR registrations of the DLSAA which lapsed in 2011. Filing of e-withholding and other taxes for current. 2. Establishing standards of governance such as hiring and evaluation of personnel, budget and disbursement processes. 3. Need for financial independence. 4. Identifying areas of DLSAA relevance as regards gen-X, gen-Y, and millennials. 5. Expansion of membership base. **DLSAA Membership Committee** Chaired by Edwin Seña, the MEMCOM is tasked with the enhancement of the membership base. Current issues: 1. Increase DLSAA Membership 2. Streamlining of DLSAA Member Benefits 3. Increase participation in Homecoming
Alumni Homecoming	Registration and Ushering
Batch reunions	No Requests
	Visit to Toronto, New York, Washington DC

A. Donor Database Profile

	2014-2015	2015-2016
Alumni Donors	1845	1984
Non-Alumni Donor	50	68
TOTAL DONORS	**1895**	**2052**

*discrepancies due to shift of academic calendar, former start of reporting period is June, now it is September
