The President's Report A.Y. 2017-2018

The President's Report A.Y. 2017-2018

Introduction

Ability, belief, and choice are tested in the crucible of life.

Only by the challenges of reality do they become skill, conviction, and virtue. The quality of our endeavors, our seriousness of purpose, the excellence of our services must be tested and purified by difficulty and adversity. For greatness is often more accurately measured, not only during times of plenty and abundance, but more so, in moments of scarcity and vulnerability. In the words of Albert Schweitzer: “One who gains strength by overcoming obstacles possesses the only strength which can overcome adversity.”

Academic Year 2017-2018 was the second year when Grade 10 graduates had to proceed to Senior High School rather than college undergraduate programs. This was the second year that Philippine colleges and universities had no incoming Freshman cohort. For private higher education institutions (HEIs) in particular, it was another year with a very significant reduction in revenue, faculty teaching loads, operating and infrastructure funds.

In DLSU, freshman enrolment reached only 1,582 for Term 1, compared to an average of 3,500 during the pre-K-12 period. This meant a significant drop in teaching loads. To address this challenge, some faculty took early service or sabbatical leaves. The Senior High School enrolment in the Manila Campus rose to almost 2,000, thus supplementing the teaching loads of the college faculty. Other faculty assisted our feeder schools in the implementation of the ConnectED program aimed at a seamless transition of Gr 12 graduates to DLSU’s college programs.

The Board of Trustees challenged us to reduce our controllable expenses. Belt-tightening measures resulted in a reduction of 10% of the general and other operating expenses; 50% of activity-based budgets; and 10% of overtime, meals, and travel expenses. This was achieved due to an institution-wide effort. No full-time faculty was laid off. The quality of DLSU education was maintained. It was even enhanced.

Greater Than

The theme of the annual report for Academic Year 2017-2018 is represented by the symbol (>), a two equal-length strokes connecting in an acute angle at the right. The period covered in this report chronicles the significant challenges (> previous years) faced by our academic community due to the K+12 educational reform. But I am also proud to report the continued achievements of DLSU as an institution (> previous years), in the individuals, departments and teams who proved the depth of their talents, and the strength of their Lasallian commitment.

What was ***GREATER THAN*** the challenges that affected our institution in Academic Year 2017-2018–largely due to the national transitioning to the K+12 system—was the passionate pursuit to be a leading learner-centered and research university, delivering future-proof educational transformation of our students.

As a graphic symbol, ***GREATER THAN*** can also be seen as a moving-forward direction that points us to what lies ahead–an ever-evolving journey to excellence in teaching and research, alongside sustainable service for our disadvantaged and vulnerable fellow Filipinos.

The President's Message

Every year is an opportunity to improve on our programs, services, and processes, in pursuit of our vision-mission to be a leading learner-centered and research university not only in the country but also in the region. This conviction is at the core of this year's President's Report, with the theme, ***"GREATER THAN."*** For indeed, De La Salle University–through the collective efforts of our faculty and students, administrators and staff, and alumni and other mission partners –has become somehow ***GREATER THAN*** its previous self.

Quality or excellence is measured by metrics set by expert peers and/or by institutional authorities. Among higher education institutions (HEIs), regular assessments are conducted at both the national and international levels. In AY 2017-2018, DLSU dedicated the necessary resources to further raise our standards of quality, so that we performed at ***GREATER THAN*** levels of research, teaching, and community engagement as set by educational associations at both national and international levels.

Despite the odds, we pursued our key targets for development. DLSU under-went PAASCU accreditation for its graduate studies, particularly the ladderized Master of Business Administration-Doctor of Business Administration, as well as other RVR COB graduate programs.

In January 2018, the Philippine Technological Council-Accreditation and Certification Board for Engineering and Technology (PTC-ACBET) assessed the following programs: Chemical Engineering, Civil Engineering, Computer Engineering, Electronics Engineering, Industrial Engineering, and Mechanical Engineering. We continued our preparations for ABET (Association of Boards of Engineering and Technology) accreditation of all our engineering programs slated for AY 2018-2019.

At the regional level, DLSU undertook the ASEAN University Network-Quality Assessment for its programs in Industrial Engineering, Mechanical Engineering, and Political Science in November 2017. In March 2018, the Economics andChemical Engineering programs were likewise re-assessed. DLSU now has a totalof 7 programs that enjoy the AUN seal of quality, aside from the AUN-QA Assessment at the Institutional Level.

On the international level, we established MOAs with Liverpool Hope University and University of Arizona for faculty and student exchange, double or joint degree programs, and research collaboration. This furthered our efforts in transnational education.

In terms of research, the Scopus database showed the University as the most productive in research among the country's top universities, based on its data as of August 2018. DLSU's research priorities highlighted the following goals: improve national productivity; design programs or projects geared towards becoming internationally competitive; and underscore the sustainable development impact of research.

Achievements by faculty and students mirrored the theme of being ***GREATER THAN*** ever. Leading the students was Zedrick Laqui, who was named among the 2017 Ten Outstanding Students of the Philippines. His fellow Lasallians also received awards and recognition both at the local and international scene, emerging as champions in various competitions such as speech and debate; campus journalism; engineering research; business case and finance; Math Olympiads; National Model UN-Washington DC; e-sports and game development; and sports and athletics.

Foremost among our faculty, University Fellows Dr. Carmelita Quebengco, Dr. Pag-asa Gaspillo, Dr. Wilfredo Licuanan, Dr. Esperanza Cabrera, Dr. Alvin Culaba, and Dr. Anthony SF Chiu received recognition from national and international award-giving institutions for their achievements in their respective fields. Many other members of our faculty and staff received similar recognitions.

In pursuit of service, the University underscored the localization of UN Sustainable Development Goals (SDGs) through the various service learning initiatives of students and faculty. The year saw the University holding the 2nd Lingkod Lasalyano Institutional Social Engagement (Summit?). Our Center of Social Concern and Action (COSCA) coordinated and animated the varied programs between members of our academic community and more than 60 community partners.

Meanwhile, the changing landscape of the DLSU Laguna Campus showed the very promising beginnings of a regional science and technology and research hub with the completion of major teaching and research facilities. These infrastructure developments included the Dr. George S.K. Ty AdvancedInstrumentation Building; the John Gokongwei, Jr. Innovation Center which houses the UBISOFT Philippine studio; and the Richard L. Lee Engineering and Technology Block. DLSU Laguna Campus also inaugurated technology- enabled learning spaces, as well as the Arthaland dormitories.

Our Manila Campus witnessed the following infrastructure improvements: the launching of the Lasallian Formation Center at the 12th floor of the Brother Andrew Gonzalez Hall; the construction of the female athletes' dormitory; and the renovation of the, Br. Connon Hall, Yuchengco Central Block; and the 6th floor of the Enrique Razon Sports Center. The "South Gate" area has been converted into a very beautiful and spacious pedestrian entrance and waiting lounge, and the "South Gate" driveway can now accommodate two-way traffic.

Notwithstanding the gargantuan challenges In Academic Year 2017-2018, Divine Providence blessed our efforts to pursue our Lasallian goals and values with lively faith and burning zeal. We are not yet out of the "Lean Years" due to the K+12 reform. But the inspiring response of the members of our academic family gives witness to a ***GREATER THAN*** commitment and passion to live out our mission in "fair weather or foul", in plenty or scarcity, in favorable or unfavorable conditions.

As we close AY 2017-2018, we thank Jesus, the Good Shepherd, for guiding us along the right paths. We celebrate the gift of Lasallian education with a greater anticipation of the future. ***GREATER THAN*** the anxieties brought by today's volatile, uncertain, complex, and ambiguous world, our commitment remains steadfast: to mold our students to their fullest potential, through Lasallian lifelong education.

BR. RAYMUNDO B. SUPLIDO FSC, PHD
President
De La Salle University

Institutional Achievements

DLSU continued to extend its boundaries of excellence

as it further undertook a series of quality assessments of its programs–from engineering and economics to political science–at the ASEAN level. At the same time, it also sought from the highly regarded Philippine Technological Council-Accreditation and Certification Board for Engineering and Technology the seal of approval for six engineering programs.

These achievements reflect the Institution's pursuit of its vision-mission, driven by the following key result areas (KRAs) for AY 2017-2018:

- education that is excellence-driven, learner-centered, and eminent;
- research that is rigorous, meaningful, and responsive; formation for all sectors that is truly Lasallian;
- governance that is transparent, accountable, and inclusive;
- community that is attuned to a sustainable Earth and socially engaged;
- and a DLSU Laguna campus where science and technology meet the arts and innovation leads to ventures.

Academics

The Lasallian community underscored an integrated approach

to education, promoting multidisciplinarity in learning and research. Faculty and students further applied classroom theories in real-life situations. They continued to conduct research, engaged in training programs, attended conferences, and joined academic and non-academic activities. New programs to be introduced in the folllowing academic year were also mapped out. The program list included eight courses in the fields of computer studies, engineering, business, and education, to be offered at DLSU Laguna Campus.

About 25% of the student population enjoy full scholarship from the University.

The DLSU Laguna Campus will have eight program offerings in computer studies, engineering, business, and education. The lineup includes the addition of BS in Civil Engineering.

Faculty Awards

Dr. Alvin Culaba
Awardee
2018 Engineering Koh Lectureship of the Philippine-American Academy of Science and Engineering (PAASE)

Dr. Angelyn Lao
Best Student Paper Award
9th International Conference on Innovation, Intelligence, Systems and Applications,
July 23-25, 2018

Dr. Anthony SF Chiu
2018 Highly Commended Paper Award
Emerald Literati Network

Dr. Drexel Camacho (with student partners)
Best Poster
2nd International Symposium and 9th Scientific Conference of the Metro Manila Health Research and Development Consortium
May 24-25, 2018

Dr. Glenn Oyong, Dr. Esperanza Cabrera, Dr. Maria Carmen Tan
Best Paper Award
22nd Microoptics Conference
November 19-22, 2017

Atty. Jose C. Reyes, Jr.
Appointed 179th Associate Justice of the Supreme Court of the Philippines
August 13, 2018

Dr. Jose Isagani Janairo
Outstanding Book Award
National Academy of Science and Technology Annual Scientific Meeting
July 11-12, 2018

Dr. Jose Victor Torres
Awardee, Cirilo F. Bautista's Prize for Best Book of Short Fiction
National Book Development Board and Manila Critics Circle National Book Award
December 2, 2017

Dr. Marissa Noel, Dr. Maria Carmen Tan, Ms. Darcy Garza, Dr. Maria Luisa Enriquez, Dr. Rechel Arcilla
First Place
Research Competition, 2nd International Symposium
and 9th Scientific Conference of the Metro Manila Health Research and Development Consortium
May 24-25, 2018

Dr. Maricar Prudente
2018 Outstanding Filipino JSPS in the Field of Education
Japan Society for the Promotion of Science (JSPS) Alumni Association of the Philippines (JAAP) JAAP Research Forum and General Assembly
July 17, 2018

Dr. Marites Tiongco, Dr. Mitzie Conchada
Outstanding Scientific Paper Award 2018
National Academy of Science and Technology Annual Scientific Meeting
July 11-12, 2018

Dr. Michael Angelo Promentilla
JSPS 2018 Outstanding Filipino JSPS Fellow in the Field of Engineering
Japan Society for the Promotion of Science (JSPS) Alumni Association of the Philippines (JAAP) JAAP Research Forum and General Assembly
July 17, 2018

2017 Distinguished Alumnus in Socio-environmental Engineering
University of the Philippines Los Baños College of Engineering and Agro-Industrial Technology Alumni Association
October 9, 2017

2018-2019 ASEAN Science and Technology Fellow
ASEAN Foundation and ASEAN Secretariat and the US Agency for International Development (USAID)

Dr. Noelle Leslie de la Cruz
Top Prize, Poetry in English
Don Carlos Palanca Memorial Awards for Literature
September 2, 2017

Dr. Ralph Vincent Regalado
Google Developer Expert in Machine Learning

Dr. Wilfredo Licuanan
Environmental Science Award
Department of Sicnece and Technology (DOST) -National Academy of Science and Technology (NAST)
April 23, 2018

Dr. Jonathan Dungca, Ms. Erica Ellice Uy (PhD student)
13th Best Paper Awards
7th International Conference on Geotechnique, Construction Materials and Environment (GEOMATE)
November 21-24, 2017
Tsu City, Mie, Japan

Dr. Joseph Auresenia
PIChE Fellow
79th Pihilippine Institute of Chemical Engineers (PIChE) National Convention
February 21-24, 2018
Bellevnue Manila, Muntinlupa City

Mary Ann Adajar, Wincent Nicole Pabilona (Civil Engineering)
Cited for their research in Soil-Structure Interface Behavior of Cemented-Paste Backfill Material Mixed with Mining Waste
7th International Conference on Geotechnique, Construction Materials and Environment (GEOMATE)
November 21-24, 2017
Tsu City, Mie, Japan

Dr. Carmelita I. Quebengco
Conferred the Degree Doctor of Education in Educational Leadership, Honoris Causa
St. Mary's College of California, USA
April 25, 2018

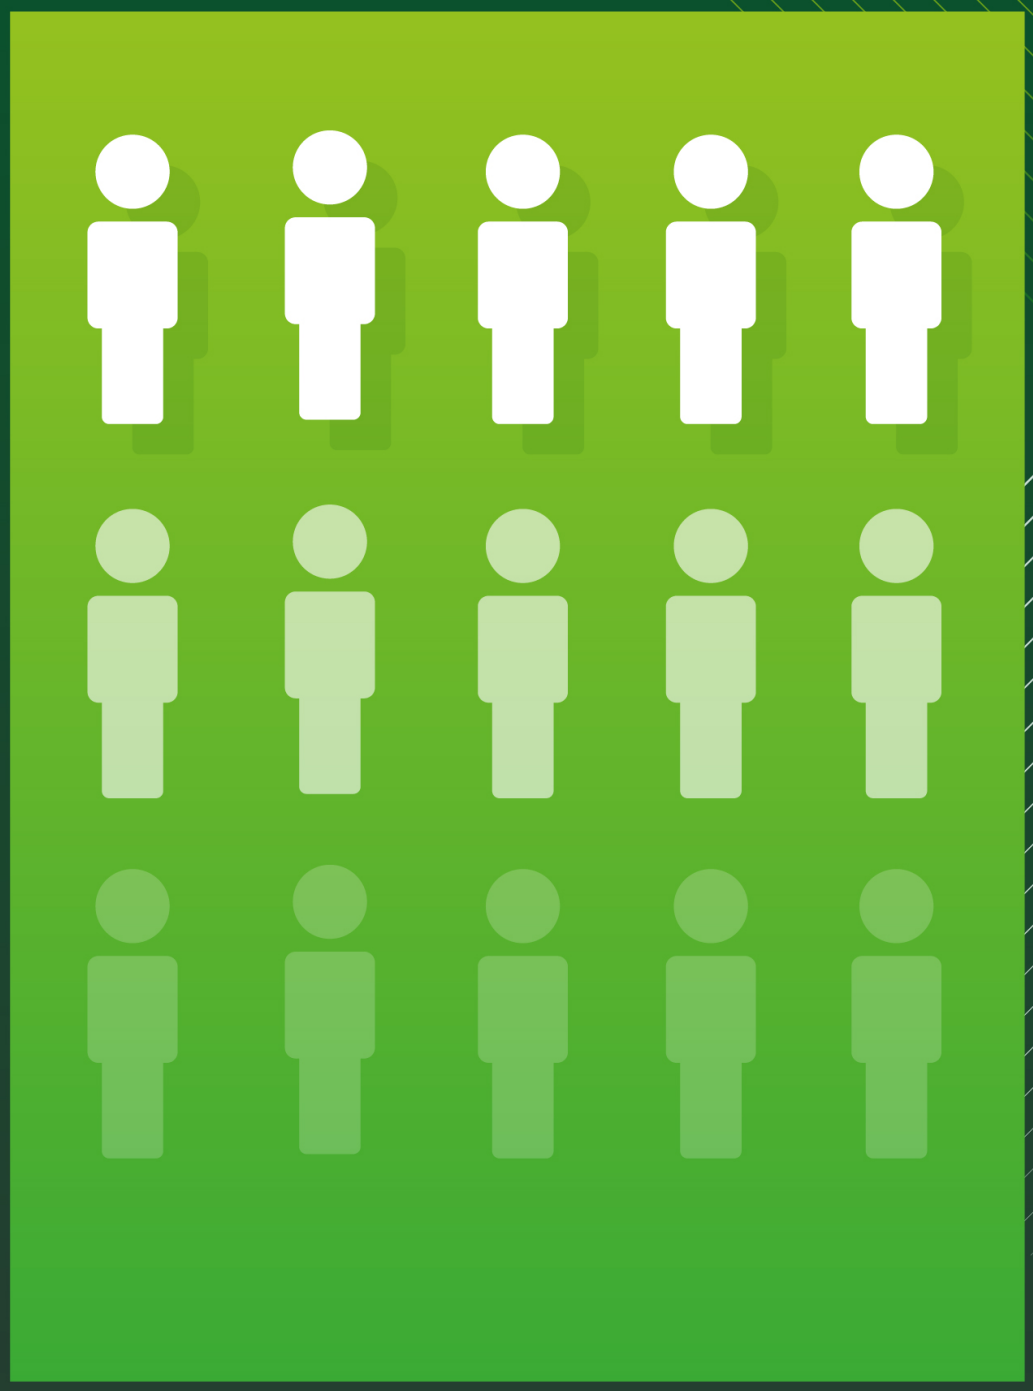
Dr. Pag-asa Gaspillo
Special Award
Japan Society for the Promotion of Science (JSPS) Alumni Association of the Philippines (JAAP) JAAP Research Forum and General Assembly
World Trade Center
July 17, 2018

Honorary Degree Conferment

Michael R. I. Purvis
Doctor of Engineering
October 14, 2017

Jack Ma (Ma Yun)
Doctor of Technopreneurship
October 25, 2017

Jose T. Pardo AFSC
Doctor of Science in Finance
February 10, 2018



Faculty Development

FACULTY DEVELOPMENT AS % OF OPERATING BUDGET AY 2015-2016 TO AY 2017-2018

"FACULTY DEVELOPMENT" refers to the Total amount allocated and spent by the University for its faculty during a particular year.

Include Funds allocated by the University and by the College Faculty Development Councils. Do not include funds from the external sources.

PARTICULARS	AY 2015-2016	AY 2016-2017	AY 2017-2018

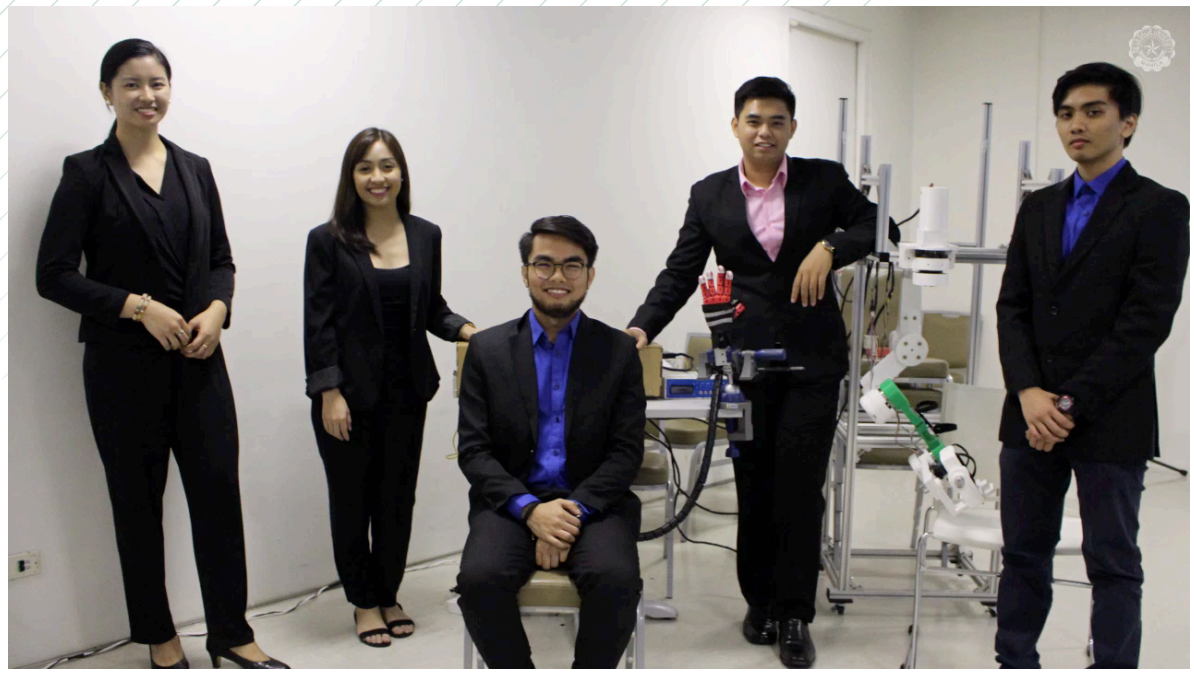
Research

Scopus-Elsevier, the world's largest scientific database, showed the University's consistent record as the most dynamic research institution in the country. By October 2017, its database showed that DLSU's Scopus-indexed publications had already breached the 2,500 mark.

DLSU faculty researchers also dominated the list of Top 20 most productive Filipino researchers in Scopus-Elsevier in November of the same year. The Top 20 list included 7 DLSU and 7 UP Diliman faculty researchers, while the Top 3 Filipino researchers of all-time were Dr. Raymond Tan with 249 published articles, Dr. Consolacion Ragasa with 216, and Dr. Elmer Dadios with 119.

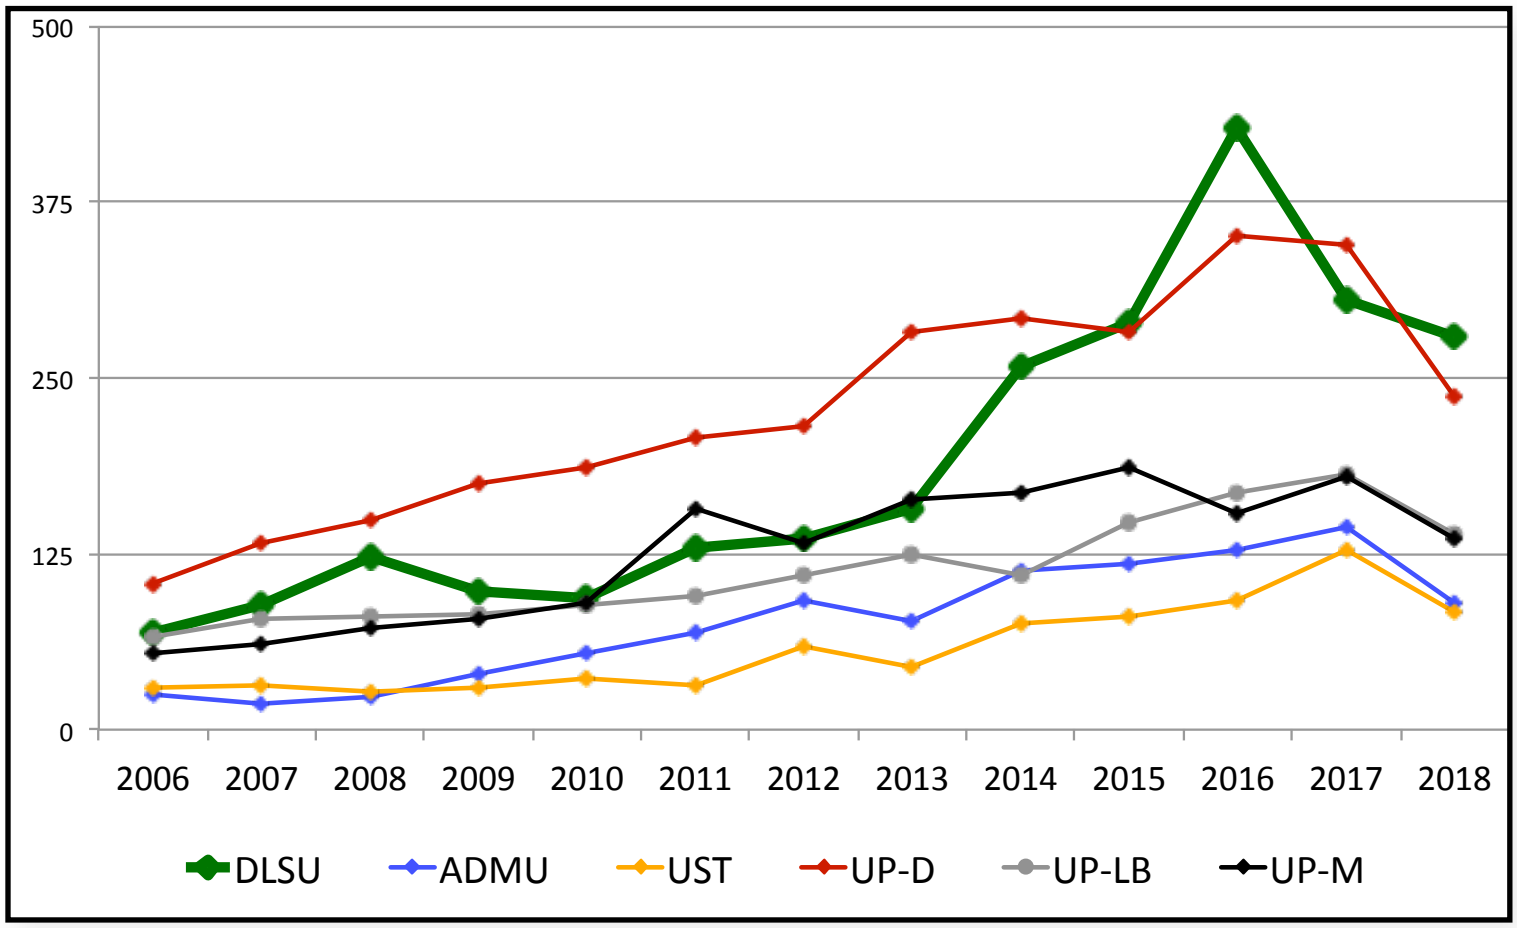


The Agapay Project pursues the development of games-motivated robotic exoskeletons to aid in the rehabilitation of stroke survivors in the Philippines.

University Fellow and Br. Alfred Shields FSC Ocean Research Center founding Director Dr. Wilfredo Licuanan, teams of marine biologists, and researchers from various disciplines and universities, conduct a national assessment of Philippine coral reefs to know their current state and health.

Production of Scopus papers

(comparative) as of August 2018



- DLSU to be listed in the 2019 Times Higher Education World University Rankings.

Social Engagement

DLSU sought to further localize UN's Sustainable Development Goals, through sustainable programs that seek to alleviate the plight of the marginalized, most vulnerable members of our society.

Through the Service-Learning component of DLSU programs, faculty and students under different organizations and units of the University continued to get engaged in various programs and initiatives that carried on the educational work of St. John Baptist de La Salle–teaching minds, touching hearts, and transforming lives.
